

considered obligations of the central obligor and will continue to be attributed to the original public-sector obligor for purposes of the lending limit.

(ii) *Qualifying restructuring.* Loans and other extensions of credit to a foreign government, its agencies, and instrumentalities will qualify for the non-combination process under paragraph (f)(3)(i) of this section only if they are restructured in a sovereign debt restructuring approved by the OCC, upon request by a bank for application of the non combination rule. The factors that the OCC will use in making this determination include, but are not limited to, the following:

(A) Whether the restructuring involves a substantial portion of the total commercial bank loans outstanding to the foreign government, its agencies, and instrumentalities;

(B) Whether the restructuring involves a substantial number of the foreign country's external commercial bank creditors;

(C) Whether the restructuring and consolidation under a central obligor is being done primarily to facilitate external debt management; and

(D) Whether the restructuring includes features of debt or debt-service reduction.

(iii) *50 percent aggregate limit.* With respect to any case in which the non-combination process under paragraph (f)(3)(i) of this section applies, a national bank's loans and other extensions of credit to a foreign government, its agencies and instrumentalities, (including restructured debt) shall not exceed, in the aggregate, 50 percent of the bank's capital and surplus.

§ 32.6 Nonconforming loans.

(a) A loan, within a bank's legal lending limit when made, will not be deemed a violation but will be treated as nonconforming if the loan is no longer in conformity with the bank's lending limit because—

(1) The bank's capital has declined, borrowers have subsequently merged or formed a common enterprise, lenders have merged, the lending limit or capital rules have changed; or

(2) Collateral securing the loan to satisfy the requirements of a lending limit exception has declined in value.

(b) A bank must use reasonable efforts to bring a loan that is nonconforming as a result of paragraph (a)(1) of this section into conformity with the bank's lending limit unless to do so would be inconsistent with safe and sound banking practices.

(c) A bank must bring a loan that is nonconforming as a result of circumstances described in paragraph (a)(2) of this section into conformity with the bank's lending limit within 30 calendar days, except when judicial proceedings, regulatory actions or other extraordinary circumstances beyond the bank's control prevent the bank from taking action.

AUTHORITY: 12 U.S.C. 1 *et seq.*, 29, 93a, 371, 1701j-3, 1828(o), and 3331 *et seq.*

Subpart A—General

SOURCE: 61 FR 11300, Mar. 20, 1996, unless otherwise noted.

§ 34.1 Purpose and scope.

(a) *Purpose.* The purpose of this part is to set forth standards for real estate-related lending and associated activities by national banks.

(b) *Scope.* This part applies to national banks and their operating subsidiaries as provided in 12 CFR 5.34. For the purposes of 12 U.S.C. 371 and subparts A and B of this part, loans secured by liens on interests in real estate include loans made upon the security of condominiums, leaseholds, co-operatives, forest tracts, land sales contracts, and construction project loans. Construction project loans are not subject to subparts A and B of this part, however, if they have a maturity not exceeding 60 months and are made to finance the construction of either:

(1) A building where there is a valid and binding agreement entered into by a financially responsible lender or other party to advance the full amount of the bank's loan upon completion of the building; or

(2) A residential or farm building.

§ 34.2 Definitions.

(a) *Due-on-sale clause* means any clause that gives the lender or any assignee or transferee of the lender the power to declare the entire debt payable if all or part of the legal or equitable title or an equivalent contractual interest in the property securing the loan is transferred to another person,

12 CFR Ch. I (1-1-00 Edition)

whether by deed, contract, or otherwise.

(b) *State* means any State of the United States of America, the District of Columbia, Puerto Rico, the Virgin Islands, the Northern Mariana Islands, American Samoa, and Guam.

(c) *State law limitations* means any State statute, regulation, or order of any State agency, or judicial decision interpreting State law.

§ 34.3 General rule.

A national bank may make, arrange, purchase, or sell loans or extensions of credit, or interests therein, that are secured by liens on, or interests in, real estate, subject to terms, conditions, and limitations prescribed by the Comptroller of the Currency by regulation or order.

§ 34.4 Applicability of State law.

(a) *Specific preemption.* A national bank may make real estate loans under 12 U.S.C. 371 and § 34.3 without regard to State law limitations concerning:

(1) The amount of a loan in relation to the appraised value of the real estate;

(2) The schedule for the repayment of principal and interest;

(3) The term to maturity of the loan;

(4) The aggregate amount of funds that may be loaned upon the security of real estate; and

(5) The covenants and restrictions that must be contained in a lease to qualify the leasehold as acceptable security for a real estate loan.

(b) *General standards.* The OCC will apply recognized principles of Federal preemption in considering whether State laws apply to other aspects of real estate lending by national banks.

§ 34.5 Due-on-sale clauses.

A national bank may make or acquire a loan or interest therein, secured by a lien on real property, that includes a due-on-sale clause. Except as set forth in 12 U.S.C. 1701j-3(d) (which contains a list of transactions in which due-on-sale clauses may not be enforced), due-on-sale clauses in loans, whenever originated, will be valid and enforceable, notwithstanding any State law limitations to the contrary. For the purposes of this section,

the term real property includes residential dwellings such as condominium units, cooperative housing units, and residential manufactured homes.

Subpart B—Adjustable-Rate Mortgages

SOURCE: 61 FR 11301, Mar. 20, 1996, unless otherwise noted.

§ 34.20 Definitions.

Adjustable-rate mortgage (ARM) loan means an extension of credit made to finance or refinance the purchase of, and secured by a lien on, a one-to-four family dwelling, including a condominium unit, cooperative housing unit, or residential manufactured home, where the lender, pursuant to an agreement with the borrower, may adjust the rate of interest from time to time. An ARM loan does not include fixed-rate extensions of credit that are payable at the end of a term that, when added to any terms for which the bank has promised to renew the loan, is shorter than the term of the amortization schedule.

§ 34.21 General rule.

(a) *Authorization.* A national bank and its subsidiaries may make, sell, purchase, participate in, or otherwise deal in ARM loans and interests therein without regard to any State law limitations on those activities.

(b) *Purchase of loans not in compliance.* A national bank may purchase or participate in ARM loans that were not made in accordance with this part, except that loans purchased, in whole or in part, from an affiliate or subsidiary must comply with this part. For purposes of this paragraph, the terms affiliate and subsidiary have the same meaning as in 12 U.S.C. 371c.

§ 34.22 Index.

If a national bank makes an ARM loan to which 12 CFR 226.19(b) applies (*i.e.*, the annual percentage rate of a loan may increase after consummation, the term exceeds one year, and the consumer's principal dwelling secures the indebtedness), the loan documents must specify an index to which changes in the interest rate will be linked. This

index must be readily available to, and verifiable by, the borrower and beyond the control of the bank. A national bank may use as an index any measure of rates of interest that meets these requirements. The index may be either single values of the chosen measure or a moving average of the chosen measure calculated over a specified period. A national bank also may increase the interest rate in accordance with applicable loan documents specifying the amount of the increase and the times at which, or circumstances under which, it may be made. A national bank may decrease the interest rate at any time.

§ 34.23 Prepayment fees.

A national bank offering or purchasing ARM loans may impose fees for prepayments notwithstanding any State law limitations to the contrary. For purposes of this section, prepayments do not include:

(a) Payments that exceed the required payment amount to avoid or reduce negative amortization; or

(b) Principal payments, in excess of those necessary to retire the outstanding debt over the remaining loan term at the then-current interest rate, that are made in accordance with rules governing the determination of monthly payments contained in the loan documents.

§ 34.24 Nonfederally chartered commercial banks.

Pursuant to 12 U.S.C. 3803(a), a State chartered commercial bank may make ARM loans in accordance with the provisions of this subpart. For purposes of this section, the term "State" shall have the same meaning as set forth in § 34.2(b).

§ 34.25 Transition rule.

If, on October 1, 1988, a national bank had made a loan or binding commitment to lend under an ARM loan program that complied with the requirements of 12 CFR part 29 in effect prior to October 1, 1988 (see 12 CFR Parts 1 to 199, revised as of January 1, 1988) but would have violated any of the provisions of this subpart, the national bank may continue to administer the loan or

binding commitment to lend in accordance with that loan program. All ARM loans or binding commitments to make ARM loans that a national bank entered into after October 1, 1988, must comply with all provisions of this subpart.

Subpart C—Appraisals

SOURCE: 55 FR 34696, Aug. 24, 1990, unless otherwise noted.

§ 34.41 Authority, purpose, and scope.

(a) *Authority.* This subpart is issued by the Office of the Comptroller of the Currency (the OCC) under 12 U.S.C. 93a and title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (Pub. L. 101-73, 103 Stat. 183 (1989)), 12 U.S.C. 3331 *et seq.*

(b) *Purpose and scope.* (1) Title XI provides protection for federal financial and public policy interests in real estate-related transactions by requiring real estate appraisals used in connection with federally related transactions to be performed in writing, in accordance with uniform standards, by appraisers whose competency has been demonstrated and whose professional conduct will be subject to effective supervision. This subpart implements the requirements of title XI, and applies to all federally related transactions entered into by the OCC or by institutions regulated by the OCC (*regulated institutions*).

(2) This subpart:

(i) Identifies which real estate-related financial transactions require the services of an appraiser;

(ii) Prescribes which categories of federally related transactions shall be appraised by a State certified appraiser and which by a State licensed appraiser; and

(iii) Prescribes minimum standards for the performance of real estate appraisals in connection with federally related transactions under the jurisdiction of the OCC.

§ 34.42 Definitions.

(a) *Appraisal* means a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion as to the market

value of an adequately described property as of a specific date(s), supported by the presentation and analysis of relevant market information.

(b) *Appraisal Foundation* means the Appraisal Foundation established on November 30, 1987, as a not-for-profit corporation under the laws of Illinois.

(c) *Appraisal Subcommittee* means the Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

(d) *Business loan* means a loan or extension of credit to any corporation, general or limited partnership, business trust, joint venture, pool, syndicate, sole proprietorship, or other business entity.

(e) *Complex 1-to-4 family residential property appraisal* means one in which the property to be appraised, the form of ownership, or market conditions are atypical.

(f) *Federally related transaction* means any real estate-related financial transaction entered into on or after August 9, 1990, that:

(1) The OCC or any of its regulated institution engages in or contracts for; and

(2) Requires the services of an appraiser.

(g) *Market value* means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

(1) Buyer and seller are typically motivated;

(2) Both parties are well informed or well advised, and acting in what they consider their own best interests;

(3) A reasonable time is allowed for exposure in the open market;

(4) Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and

(5) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

(h) *Real estate or real property* means an identified parcel or tract of land, with improvements, and includes easements, rights of way, undivided or future interests, or similar rights in a tract of land, but does not include mineral rights, timber rights, growing crops, water rights, or similar interests severable from the land when the transaction does not involve the associated parcel or tract of land.

(i) *Real estate-related financial transaction* means any transaction involving:

(1) The sale, lease, purchase, investment in or exchange of real property, including interests in property, or the financing thereof; or

(2) The refinancing of real property or interests in real property; or

(3) The use of real property or interests in property as security for a loan or investment, including mortgage-backed securities.

(j) *State certified appraiser* means any individual who has satisfied the requirements for certification in a State or territory whose criteria for certification as a real estate appraiser currently meet the minimum criteria for certification issued by the Appraiser Qualifications Board of the Appraisal Foundation. No individual shall be a State certified appraiser unless such individual has achieved a passing grade upon a suitable examination administered by a State or territory that is consistent with and equivalent to the Uniform State Certification Examination issued or endorsed by the Appraiser Qualifications Board of the Appraisal Foundation. In addition, the Appraisal Subcommittee must not have issued a finding that the policies, practices, or procedures of the State or territory are inconsistent with title XI of FIRREA. The OCC may, from time to time, impose additional qualification criteria for certified appraisers performing appraisals in connection with federally related transactions within its jurisdiction.

(k) *State licensed appraiser* means any individual who has satisfied the requirements for licensing in a State or territory where the licensing procedures comply with title XI of FIRREA and where the Appraisal Subcommittee has not issued a finding that the poli-

cies, practices, or procedures of the State or territory are inconsistent with title XI. The OCC may, from time to time, impose additional qualification criteria for licensed appraisers performing appraisals in connection with federally related transactions within its jurisdiction.

(l) *Tract development* means a project of five units or more that is constructed or is to be constructed as a single development.

(m) *Transaction value* means:

(1) For loans or other extensions of credit, the amount of the loan or extension of credit;

(2) For sales, leases, purchases, and investments in or exchanges of real property, the market value of the real property interest involved; and

(3) For the pooling of loans or interests in real property for resale or purchase, the amount of the loan or market value of the real property calculated with respect to each such loan or interest in real property.

[55 FR 34696, Aug. 24, 1990, as amended at 57 FR 12202, Apr. 9, 1992; 59 FR 29499, June 7, 1994]

§ 34.43 Appraisals required; transactions requiring a State certified or licensed appraiser.

(a) *Appraisals required.* An appraisal performed by a State certified or licensed appraiser is required for all real estate-related financial transactions except those in which:

(1) The transaction value is \$250,000 or less;

(2) A lien on real estate has been taken as collateral in an abundance of caution;

(3) The transaction is not secured by real estate;

(4) A lien on real estate has been taken for purposes other than the real estate's value;

(5) The transaction is a business loan that:

(i) Has a transaction value of \$1 million or less; and

(ii) Is not dependent on the sale of, or rental income derived from, real estate as the primary source of repayment;

(6) A lease of real estate is entered into, unless the lease is the economic equivalent of a purchase or sale of the leased real estate;

(7) The transaction involves an existing extension of credit at the lending institution, provided that:

(i) There has been no obvious and material change in market conditions or physical aspects of the property that threatens the adequacy of the institution's real estate collateral protection after the transaction, even with the advancement of new monies; or

(ii) There is no advancement of new monies, other than funds necessary to cover reasonable closing costs;

(8) The transaction involves the purchase, sale, investment in, exchange of, or extension of credit secured by, a loan or interest in a loan, pooled loans, or interests in real property, including mortgaged-backed securities, and each loan or interest in a loan, pooled loan, or real property interest met OCC regulatory requirements for appraisals at the time of origination;

(9) The transaction is wholly or partially insured or guaranteed by a United States government agency or United States government sponsored agency;

(10) The transaction either:

(i) Qualifies for sale to a United States government agency or United States government sponsored agency; or

(ii) Involves a residential real estate transaction in which the appraisal conforms to the Federal National Mortgage Association or Federal Home Loan Mortgage Corporation appraisal standards applicable to that category of real estate;

(11) The regulated institution is acting in a fiduciary capacity and is not required to obtain an appraisal under other law; or

(12) The OCC determines that the services of an appraiser are not necessary in order to protect Federal financial and public policy interests in real estate-related financial transactions or to protect the safety and soundness of the institution.

(b) *Evaluations required.* For a transaction that does not require the services of a State certified or licensed appraiser under paragraph (a)(1), (a)(5) or (a)(7) of this section, the institution shall obtain an appropriate evaluation of real property collateral that is con-

sistent with safe and sound banking practices.

(c) *Appraisals to address safety and soundness concerns.* The OCC reserves the right to require an appraisal under this subpart whenever the agency believes it is necessary to address safety and soundness concerns.

(d) *Transactions requiring a State certified appraiser—*(1) *All transactions of \$1,000,000 or more.* All federally related transactions having a transaction value of \$1,000,000 or more shall require an appraisal prepared by a State certified appraiser.

(2) *Nonresidential transactions of \$250,000 or more.* All federally related transactions having a transaction value of \$250,000 or more, other than those involving appraisals of 1-to-4 family residential properties, shall require an appraisal performed by a State certified appraiser.

(3) *Complex residential transactions of \$250,000 or more.* All complex 1-to-4 family residential property appraisals rendered in connection with federally related transactions shall require a State certified appraiser if the transaction value is \$250,000 or more. A regulated institution may presume that appraisals of 1-to-4 family residential properties are not complex, unless the institution has readily available information that a given appraisal will be complex. The regulated institution shall be responsible for making the final determination whether the appraisal is complex. If during the course of the appraisal a licensed appraiser identifies factors that would result in the property, form of ownership, or market conditions being considered atypical, then either:

(i) The regulated institution may ask the licensed appraiser to complete the appraisal and have a certified appraiser approve and co-sign the appraisal; or

(ii) The institution may engage a certified appraiser to complete the appraisal.

(e) *Transactions requiring either a State certified or licensed appraiser.* All appraisals for federally related transactions not requiring the services of a State certified appraiser shall be prepared by either a State certified appraiser or a State licensed appraiser.

Comptroller of the Currency, Treasury

§ 34.47

(f) *Effective date.* National banks are required to use State certified or licensed appraisers as set forth in this part no later than December 31, 1992.

[55 FR 34696, Aug. 24, 1990, as amended at 57 FR 12202, Apr. 9, 1992; 59 FR 29499, June 7, 1994]

§ 34.44 Minimum appraisal standards.

For federally related transactions, all appraisals shall, at a minimum:

(a) Conform to generally accepted appraisal standards as evidenced by the Uniform Standards of Professional Appraisal Practice (USPAP) promulgated by the Appraisal Standards Board of the Appraisal Foundation, 1029 Vermont Ave., NW., Washington, DC 20005, unless principles of safe and sound banking require compliance with stricter standards;

(b) Be written and contain sufficient information and analysis to support the institution's decision to engage in the transaction;

(c) Analyze and report appropriate deductions and discounts for proposed construction or renovation, partially leased buildings, non-market lease terms, and tract developments with unsold units;

(d) Be based upon the definition of market value as set forth in this subpart; and

(e) Be performed by State licensed or certified appraisers in accordance with requirements set forth in this subpart.

[59 FR 29500, June 7, 1994]

§ 34.45 Appraiser independence.

(a) *Staff appraisers.* If an appraisal is prepared by a staff appraiser, that appraiser must be independent of the lending, investment, and collection functions and not involved, except as an appraiser, in the federally related transaction, and have no direct or indirect interest, financial or otherwise, in the property. If the only qualified persons available to perform an appraisal are involved in the lending, investment, or collection functions of the regulated institution, the regulated institution shall take appropriate steps to ensure that the appraisers exercise independent judgment. Such steps include, but are not limited to, prohibiting an individual from performing an

appraisal in connection with federally related transactions in which the appraiser is otherwise involved and prohibiting directors and officers from participating in any vote or approval involving assets on which they performed an appraisal.

(b) *Fee appraisers.* (1) If an appraisal is prepared by a fee appraiser, the appraiser shall be engaged directly by the regulated institution or its agent, and have no direct or indirect interest, financial or otherwise, in the property or the transaction.

(2) A regulated institution also may accept an appraisal that was prepared by an appraiser engaged directly by another financial services institution, if:

(i) The appraiser has no direct or indirect interest, financial or otherwise, in the property or the transaction; and

(ii) The regulated institution determines that the appraisal conforms to the requirements of this subpart and is otherwise acceptable.

[55 FR 34696, Aug. 24, 1990, as amended at 59 FR 29500, June 7, 1994]

§ 34.46 Professional association membership; competency.

(a) *Membership in appraisal organizations.* A State certified appraiser or a State licensed appraiser may not be excluded from consideration for an assignment for a federally related transaction solely by virtue of membership or lack of membership in any particular appraisal organization.

(b) *Competency.* All staff and fee appraisers performing appraisals in connection with federally related transactions must be State certified or licensed, as appropriate. However, a State certified or licensed appraiser may not be considered competent solely by virtue of being certified or licensed. Any determination of competency shall be based upon the individual's experience and educational background as they relate to the particular appraisal assignment for which he or she is being considered.

§ 34.47 Enforcement.

Institutions and institution-affiliated parties, including staff appraisers and fee appraisers, may be subject to removal and/or prohibition orders, cease and desist orders, and the imposition of

§ 34.61

civil money penalties pursuant to the Federal Deposit Insurance Act, 12 U.S.C. 1811 *et seq.*, as amended, or other applicable law.

Subpart D—Real Estate Lending Standards

SOURCE: 57 FR 62889, Dec. 31, 1992, unless otherwise noted.

§ 34.61 Purpose and scope.

This subpart, issued pursuant to section 304 of the Federal Deposit Insurance Corporation Improvement Act of 1991, 12 U.S.C. 1828(o), prescribes standards for real estate lending to be used by national banks in adopting internal real estate lending policies.

§ 34.62 Real estate lending standards.

(a) Each national bank shall adopt and maintain written policies that establish appropriate limits and standards for extensions of credit that are secured by liens on or interests in real estate, or that are made for the purpose of financing permanent improvements to real estate.

(b)(1) Real estate lending policies adopted pursuant to this section must:

(i) Be consistent with safe and sound banking practices;

(ii) Be appropriate to the size of the institution and the nature and scope of its operations; and

(iii) Be reviewed and approved by the bank's board of directors at least annually.

(2) The lending policies must establish:

(i) Loan portfolio diversification standards;

(ii) Prudent underwriting standards, including loan-to-value limits, that are clear and measurable;

(iii) Loan administration procedures for the bank's real estate portfolio; and

(iv) Documentation, approval, and reporting requirements to monitor compliance with the bank's real estate lending policies.

(c) Each national bank must monitor conditions in the real estate market in its lending area to ensure that its real estate lending policies continue to be appropriate for current market conditions.

12 CFR Ch. I (1–1–00 Edition)

(d) The real estate lending policies adopted pursuant to this section should reflect consideration of the Interagency Guidelines for Real Estate Lending Policies established by the Federal bank and thrift supervisory agencies.

APPENDIX A TO SUBPART D OF PART 34— INTERAGENCY GUIDELINES FOR REAL ESTATE LENDING

The agencies' regulations require that each insured depository institution adopt and maintain a written policy that establishes appropriate limits and standards for all extensions of credit that are secured by liens on or interests in real estate or made for the purpose of financing the construction of a building or other improvements.¹ These guidelines are intended to assist institutions in the formulation and maintenance of a real estate lending policy that is appropriate to the size of the institution and the nature and scope of its individual operations, as well as satisfies the requirements of the regulation.

Each institution's policies must be comprehensive, and consistent with safe and sound lending practices, and must ensure that the institution operates within limits and according to standards that are reviewed and approved at least annually by the board of directors. Real estate lending is an integral part of many institutions' business plans and, when undertaken in a prudent manner, will not be subject to examiner criticism.

LOAN PORTFOLIO MANAGEMENT CONSIDERATIONS

The lending policy should contain a general outline of the scope and distribution of the institution's credit facilities and the manner in which real estate loans are made, serviced, and collected. In particular, the institution's policies on real estate lending should:

- Identify the geographic areas in which the institution will consider lending.

- Establish a loan portfolio diversification policy and set limits for real estate loans by type and geographic market (e.g., limits on higher risk loans).

- Identify appropriate terms and conditions by type of real estate loan.

- Establish loan origination and approval procedures, both generally and by size and type of loan.

¹The agencies have adopted a uniform rule on real estate lending. See 12 CFR part 365 (FDIC); 12 CFR part 208, subpart C (FRB); 12 CFR part 34, subpart D (OCC); and 12 CFR 563.100–101 (OTS).

- Establish prudent underwriting standards that are clear and measurable, including loan-to-value limits, that are consistent with these supervisory guidelines.

- Establish review and approval procedures for exception loans, including loans with loan-to-value percentages in excess of supervisory limits.

- Establish loan administration procedures, including documentation, disbursement, collateral inspection, collection, and loan review.

- Establish real estate appraisal and evaluation programs.

- Require that management monitor the loan portfolio and provide timely and adequate reports to the board of directors.

The institution should consider both internal and external factors in the formulation of its loan policies and strategic plan. Factors that should be considered include:

- The size and financial condition of the institution.

- The expertise and size of the lending staff.

- The need to avoid undue concentrations of risk.

- Compliance with all real estate related laws and regulations, including the Community Reinvestment Act, anti-discrimination laws, and for savings associations, the Qualified Thrift Lender test.

- Market conditions.

The institution should monitor conditions in the real estate markets in its lending area so that it can react quickly to changes in market conditions that are relevant to its lending decisions. Market supply and demand factors that should be considered include:

- Demographic indicators, including population and employment trends.

- Zoning requirements.

- Current and projected vacancy, construction, and absorption rates.

- Current and projected lease terms, rental rates, and sales prices, including concessions.

- Current and projected operating expenses for different types of projects.

- Economic indicators, including trends and diversification of the lending area.

- Valuation trends, including discount and direct capitalization rates.

UNDERWRITING STANDARDS

Prudently underwritten real estate loans should reflect all relevant credit factors, including:

- The capacity of the borrower, or income from the underlying property, to adequately service the debt.

- The value of the mortgaged property.

- The overall creditworthiness of the borrower.

- The level of equity invested in the property.

- Any secondary sources of repayment.

- Any additional collateral or credit enhancements (such as guarantees, mortgage insurance or takeout commitments).

The lending policies should reflect the level of risk that is acceptable to the board of directors and provide clear and measurable underwriting standards that enable the institution's lending staff to evaluate these credit factors. The underwriting standards should address:

- The maximum loan amount by type of property.

- Maximum loan maturities by type of property.

- Amortization schedules.

- Pricing structure for different types of real estate loans.

- Loan-to-value limits by type of property.

For development and construction projects, and completed commercial properties, the policy should also establish, commensurate with the size and type of the project or property:

- Requirements for feasibility studies and sensitivity and risk analyses (e.g., sensitivity of income projections to changes in economic variables such as interest rates, vacancy rates, or operating expenses).

- Minimum requirements for initial investment and maintenance of hard equity by the borrower (e.g., cash or unencumbered investment in the underlying property).

- Minimum standards for net worth, cash flow, and debt service coverage of the borrower or underlying property.

- Standards for the acceptability of and limits on non-amortizing loans.

- Standards for the acceptability of and limits on the use of interest reserves.

- Pre-leasing and pre-sale requirements for income-producing property.

- Pre-sale and minimum unit release requirements for non-income-producing property loans.

- Limits on partial recourse or non-recourse loans and requirements for guarantor support.

- Requirements for takeout commitments.

- Minimum covenants for loan agreements.

LOAN ADMINISTRATION

The institution should also establish loan administration procedures for its real estate portfolio that address:

- Documentation, including:

- Type and frequency of financial statements, including requirements for verification of information provided by the borrower;

- Type and frequency of collateral evaluations (appraisals and other estimates of value).

- Loan closing and disbursement.

- Payment processing.
- Escrow administration.
- Collateral administration.
- Loan payoffs.
- Collections and foreclosure, including: Delinquency follow-up procedures; Foreclosure timing; Extensions and other forms of forbearance; Acceptance of deeds in lieu of foreclosure.
- Claims processing (e.g., seeking recovery on a defaulted loan covered by a government guaranty or insurance program).
- Servicing and participation agreements.

SUPERVISORY LOAN-TO-VALUE LIMITS

Institutions should establish their own internal loan-to-value limits for real estate loans. These internal limits should not exceed the following supervisory limits:

Loan category	Loan-to-value limit (percent)
Raw land	65
Land development	75
Construction:	
Commercial, multifamily, ¹ and other non-residential	80
1- to 4-family residential	85
Improved property	85
Owner-occupied 1- to 4-family and home equity	(²)

¹ Multifamily construction includes condominiums and co-operatives.

² A loan-to-value limit has not been established for permanent mortgage or home equity loans on owner-occupied, 1- to 4-family residential property. However, for any such loan with a loan-to-value ratio that equals or exceeds 90 percent at origination, an institution should require appropriate credit enhancement in the form of either mortgage insurance or readily marketable collateral.

The supervisory loan-to-value limits should be applied to the underlying property that collateralizes the loan. For loans that fund multiple phases of the same real estate project (e.g., a loan for both land development and construction of an office building), the appropriate loan-to-value limit is the limit applicable to the final phase of the project funded by the loan; however, loan disbursements should not exceed actual development or construction outlays. In situations where a loan is fully cross-collateralized by two or more properties or is secured by a collateral pool of two or more properties, the appropriate maximum loan amount under supervisory loan-to-value limits is the sum of the value of each property, less senior liens, multiplied by the appropriate loan-to-value limit for each property. To ensure that collateral margins remain within the supervisory limits, lenders should redetermine conformity whenever collateral substitutions are made to the collateral pool.

In establishing internal loan-to-value limits, each lender is expected to carefully consider the institution-specific and market factors listed under "Loan Portfolio Manage-

ment Considerations," as well as any other relevant factors, such as the particular sub-category or type of loan. For any sub-category of loans that exhibits greater credit risk than the overall category, a lender should consider the establishment of an internal loan-to-value limit for that sub-category that is lower than the limit for the overall category.

The loan-to-value ratio is only one of several pertinent credit factors to be considered when underwriting a real estate loan. Other credit factors to be taken into account are highlighted in the "Underwriting Standards" section above. Because of these other factors, the establishment of these supervisory limits should not be interpreted to mean that loans at these levels will automatically be considered sound.

LOANS IN EXCESS OF THE SUPERVISORY LOAN-TO-VALUE LIMITS

The agencies recognize that appropriate loan-to-value limits vary not only among categories of real estate loans but also among individual loans. Therefore, it may be appropriate in individual cases to originate or purchase loans with loan-to-value ratios in excess of the supervisory loan-to-value limits, based on the support provided by other credit factors. Such loans should be identified in the institutions's records, and their aggregate amount reported at least quarterly to the institution's board of directors. (See additional reporting requirements described under "Exceptions to the General Policy.")

The aggregate amount of all loans in excess of the supervisory loan-to-value limits should not exceed 100 percent of total capital.² Moreover, within the aggregate limit, total loans for all commercial, agricultural, multifamily or other non-1-to-4 family residential properties should not exceed 30 percent of total capital. An institution will come under increased supervisory scrutiny as the total of such loans approaches these levels.

In determining the aggregate amount of such loans, institutions should: (a) Include all loans secured by the same property if any one of those loans exceeds the supervisory loan-to-value limits; and (b) include the recourse obligation of any such loan sold with recourse. Conversely, a loan should no longer

²For the state member banks, the term "total capital" means "total risk-based capital" as defined in appendix A to 12 CFR part 208. For insured state non-member banks, "total capital" refers to that term described in table I of appendix A to 12 CFR part 325. For national banks, the term "total capital" is defined at 12 CFR 3.2(e). For savings associations, the term "total capital" is defined at 12 CFR 567.5(c).

be reported to the directors as part of aggregate totals when reduction in principal or senior liens, or additional contribution of collateral or equity (e.g., improvements to the real property securing the loan), bring the loan-to-value ratio into compliance with supervisory limits.

EXCLUDED TRANSACTIONS

The agencies also recognize that there are a number of lending situations in which other factors significantly outweigh the need to apply the supervisory loan-to-value limits. These include:

- Loans guaranteed or insured by the U.S. government or its agencies, provided that the amount of the guaranty or insurance is at least equal to the portion of the loan that exceeds the supervisory loan-to-value limit.
- Loans backed by the full faith and credit of a State government, provided that the amount of the assurance is at least equal to the portion of the loan that exceeds the supervisory loan-to-value limit.
- Loans guaranteed or insured by a State, municipal or local government, or an agency thereof, provided that the amount of the guaranty or insurance is at least equal to the portion of the loan that exceeds the supervisory loan-to-value limit, and provided that the lender has determined that the guarantor or insurer has the financial capacity and willingness to perform under the terms of the guaranty or insurance agreement.
- Loans that are to be sold promptly after origination, without recourse, to a financially responsible third party.
- Loans that are renewed, refinanced, or restructured without the advancement of new funds or an increase in the line of credit (except for reasonable closing costs), or loans that are renewed, refinanced, or restructured in connection with a workout situation, either with or without the advancement of new funds, where consistent with safe and sound banking practices and part of a clearly defined and well-documented program to achieve orderly liquidation of the debt, reduce risk of loss, or maximize recovery on the loan.
- Loans that facilitate the sale of real estate acquired by the lender in the ordinary course of collecting a debt previously contracted in good faith.
- Loans for which a lien on or interest in real property is taken as additional collateral through an abundance of caution by the lender (e.g., the institution takes a blanket lien on all or substantially all of the assets of the borrower, and the value of the real property is low relative to the aggregate value of all other collateral).
- Loans, such as working capital loans, where the lender does not rely principally on real estate as security and the extension of credit is not used to acquire, develop, or con-

struct permanent improvements on real property.

- Loans for the purpose of financing permanent improvements to real property, but not secured by the property, if such security interest is not required by prudent underwriting practice.

EXCEPTIONS TO THE GENERAL LENDING POLICY

Some provision should be made for the consideration of loan requests from credit-worthy borrowers whose credit needs do not fit within the institution's general lending policy. An institution may provide for prudently underwritten exceptions to its lending policies, including loan-to-value limits, on a loan-by-loan basis. However, any exceptions from the supervisory loan-to-value limits should conform to the aggregate limits on such loans discussed above.

The board of directors is responsible for establishing standards for the review and approval of exception loans. Each institution should establish an appropriate internal process for the review and approval of loans that do not conform to its own internal policy standards. The approval of any such loan should be supported by a written justification that clearly sets forth all of the relevant credit factors that support the underwriting decision. The justification and approval documents for such loans should be maintained as a part of the permanent loan file. Each institution should monitor compliance with its real estate lending policy and individually report exception loans of a significant size to its board of directors.

SUPERVISORY REVIEW OF REAL ESTATE LENDING POLICIES AND PRACTICES

The real estate lending policies of institutions will be evaluated by examiners during the course of their examinations to determine if the policies are consistent with safe and sound lending practices, these guidelines, and the requirements of the regulation. In evaluating the adequacy of the institution's real estate lending policies and practices, examiners will take into consideration the following factors:

- The nature and scope of the institution's real estate lending activities.
- The size and financial condition of the institution.
- The quality of the institution's management and internal controls.
- The expertise and size of the lending and loan administration staff.
- Market conditions.

Lending policy exception reports will also be reviewed by examiners during the course of their examinations to determine whether the institutions' exceptions are adequately documented and appropriate in light of all of the relevant credit considerations. An excessive volume of exceptions to an institution's

real estate lending policy may signal a weakening of its underwriting practices, or may suggest a need to revise the loan policy.

DEFINITIONS

For the purposes of these Guidelines:

Construction loan means an extension of credit for the purpose of erecting or rehabilitating buildings or other structures, including any infrastructure necessary for development.

Extension of credit or loan means:

- (1) The total amount of any loan, line of credit, or other legally binding lending commitment with respect to real property; and
- (2) The total amount, based on the amount of consideration paid, of any loan, line of credit, or other legally binding lending commitment acquired by a lender by purchase, assignment, or otherwise.

Improved property loan means an extension of credit secured by one of the following types of real property:

- (1) Farmland, ranchland or timberland committed to ongoing management and agricultural production;
- (2) 1- to 4-family residential property that is not owner-occupied;
- (3) Residential property containing five or more individual dwelling units;
- (4) Completed commercial property; or
- (5) Other income-producing property that has been completed and is available for occupancy and use, except income-producing owner-occupied 1- to 4-family residential property.

Land development loan means an extension of credit for the purpose of improving unimproved real property prior to the erection of structures. The improvement of unimproved real property may include the laying or placement of sewers, water pipes, utility cables, streets, and other infrastructure necessary for future development.

Loan origination means the time of inception of the obligation to extend credit (i.e., when the last event or prerequisite, controllable by the lender, occurs causing the lender to become legally bound to fund an extension of credit).

Loan-to-value or loan-to-value ratio means the percentage or ratio that is derived at the time of loan origination by dividing an extension of credit by the total value of the property(ies) securing or being improved by the extension of credit plus the amount of any readily marketable collateral and other acceptable collateral that secures the extension of credit. The total amount of all senior liens on or interests in such property(ies) should be included in determining the loan-to-value ratio. When mortgage insurance or collateral is used in the calculation of the loan-to-value ratio, and such credit enhancement is later released or replaced, the loan-to-value ratio should be recalculated.

Other acceptable collateral means any collateral in which the lender has a perfected security interest, that has a quantifiable value, and is accepted by the lender in accordance with safe and sound lending practices. Other acceptable collateral should be appropriately discounted by the lender consistent with the lender's usual practices for making loans secured by such collateral. Other acceptable collateral includes, among other items, unconditional irrevocable standby letters of credit for the benefit of the lender.

Owner-occupied, when used in conjunction with the term *1- to 4-family residential property* means that the owner of the underlying real property occupies at least one unit of the real property as a principal residence of the owner.

Readily marketable collateral means insured deposits, financial instruments, and bullion in which the lender has a perfected interest. Financial instruments and bullion must be salable under ordinary circumstances with reasonable promptness at a fair market value determined by quotations based on actual transactions, on an auction or similarly available daily bid and ask price market. Readily marketable collateral should be appropriately discounted by the lender consistent with the lender's usual practices for making loans secured by such collateral.

Value means an opinion or estimate, set forth in an appraisal or evaluation, whichever may be appropriate, of the market value of real property, prepared in accordance with the agency's appraisal regulations and guidance. For loans to purchase an existing property, the term "value" means the lesser of the actual acquisition cost or the estimate of value.

1- to 4-family residential property means property containing fewer than five individual dwelling units, including manufactured homes permanently affixed to the underlying property (when deemed to be real property under State law).

Subpart E—Other Real Estate Owned

SOURCE: 61 FR 11301, Mar. 20, 1996, unless otherwise noted.

§ 34.81 Definitions.

(a) *Capital and surplus* means:

- (1) A bank's Tier 1 and Tier 2 capital as calculated under the OCC's risk-based capital standards set out in appendix A to part 3 of this chapter based upon the bank's Consolidated Report of

Condition and Income filed under 12 U.S.C. 161; plus

(2) The balance of a bank's allowance for loan and lease losses not included in the bank's Tier 2 capital, for purposes of the calculation of risk-based capital under Appendix A to 12 CFR part 3, based upon the bank's Consolidated Report of Condition and Income filed under 12 U.S.C. 161.

(b) *Debts previously contracted (DPC) real estate* means real estate (including capitalized and operating leases) acquired by a national bank through any means in full or partial satisfaction of a debt previously contracted.

(c) *Former banking premises* means real estate (including capitalized and operating leases) for which banking use no longer is contemplated. This includes real estate originally acquired for future expansion that no longer will be used for expansion or other banking purposes.

(d) *Market value* means the value determined in accordance with subpart C of this part.

(e) *Other real estate owned (OREO)* means:

- (1) DPC real estate; and
- (2) Former banking premises.

(f) *Recorded investment amount* means:

- (1) For loans, the recorded loan balance, as determined by generally accepted accounting principles; and
- (2) For former banking premises, the net book value.

§ 34.82 Holding period.

(a) *Holding period for OREO.* A national bank shall dispose of OREO at the earliest time that prudent judgment dictates, but not later than the end of the holding period (or an extension thereof) permitted by 12 U.S.C. 29.

(b) *Commencement of holding period.* The holding period begins on the date that:

- (1) Ownership of the property is originally transferred to a national bank;
- (2) A bank completes relocation from former banking premises to new banking premises or ceases to use the former banking premises without relocating; or
- (3) A bank decides not to use real estate acquired for future bank expansion.

(c) *Effect of statutory redemption period.* For DPC real estate that is subject to a redemption period imposed under State law, the holding period begins at the expiration of that redemption period.

§ 34.83 Disposition of real estate.

(a) *Disposition.* A national bank may comply with its obligation to dispose of real estate under 12 U.S.C. 29 in the following ways:

(1) With respect to OREO in general:

(i) By entering into a transaction that is a sale under generally accepted accounting principles;

(ii) By entering into a transaction that involves a loan guaranteed or insured by the United States government or by an agency of the United States government or a loan eligible for purchase by a Federally-sponsored instrumentality that purchases loans; or

(iii) By selling the property pursuant to a land contract or a contract for deed;

(2) With respect to DPC real estate, by retaining the property for its own use as bank premises or by transferring it to a subsidiary or affiliate for use in the business of the subsidiary or affiliate;

(3) With respect to a capitalized or operating lease:

(i) By obtaining an assignment or a coterminous sublease. If a national bank enters into a sublease that is not coterminous, the period during which the master lease must be divested will be suspended for the duration of the sublease, and will begin running again upon termination of the sublease. A national bank holding a lease as OREO may enter into an extension of the lease that would exceed the holding period referred to in § 34.82 if the extension meets the following criteria:

(A) The extension is necessary in order to sublease the master lease;

(B) The national bank, prior to entering into the extension, has a firm commitment from a prospective subtenant to sublease the property; and

(C) The term of the extension is reasonable and does not materially exceed the term of the sublease;

(ii) Should the OCC determine that a bank has entered into a lease, extension of a lease, or a sublease for the

§ 34.84

12 CFR Ch. I (1–1–00 Edition)

purpose of real estate speculation in violation of 12 U.S.C. 29 and this part, the OCC will take appropriate measures to address the violation, which may include requiring the bank to take immediate steps to divest the lease or sublease; and

(4) With respect to a transaction that does not qualify as a disposition under paragraphs (a)(1) through (3) of this section, by receiving or accumulating from the purchaser an amount in a down payment, principal and interest payments, and private mortgage insurance totalling at least 10 percent of the sales price, as measured in accordance with generally accepted accounting principles.

(b) *Disposition efforts and documentation.* A national bank shall make diligent and ongoing efforts to dispose of each parcel of OREO, and shall maintain documentation adequate to reflect those efforts.

§ 34.84 Future bank expansion.

A national bank normally should use real estate acquired for future bank expansion within five years. After holding such real estate for one year, the bank shall state, by resolution of the board of directors or an appropriately authorized bank official or subcommittee of the board, definite plans for its use. The resolution or other official action must be available for inspection by national bank examiners.

§ 34.85 Appraisal requirements.

(a) *General.* (1) Upon transfer to OREO, a national bank shall substantiate the parcel's market value by obtaining either:

(i) An appraisal in accordance with subpart C of this part; or

(ii) An appropriate evaluation when the recorded investment amount is equal to or less than the threshold amount in subpart C of this part.

(2) A national bank shall develop a prudent real estate collateral evaluation policy that allows the bank to monitor the value of each parcel of OREO in a manner consistent with prudent banking practice.

(b) *Exception.* If a national bank has a valid appraisal or an appropriate evaluation obtained in connection with a

real estate loan and in accordance with subpart C of this part, then the bank need not obtain another appraisal or evaluation when it acquires ownership of the property.

(c) *Sales of OREO.* A national bank need not obtain a new appraisal or evaluation when selling OREO if the sale is consummated based on a valid appraisal or an appropriate evaluation.

§ 34.86 Additional expenditures and notification.

(a) *Additional expenditures on OREO.* For OREO that is a development or improvement project, a national bank may make advances to complete the project if the advances:

(1) Are reasonably calculated to reduce any shortfall between the parcel's market value and the bank's recorded investment amount;

(2) Are not made for the purpose of speculation in real estate; and

(3) Are consistent with safe and sound banking practices.

(b) *Notification procedures.* (1) A national bank shall notify the appropriate supervisory office at least 30 days before implementing a development or improvement plan for OREO when the sum of the plan's estimated cost and the bank's current recorded investment amount (including any unpaid prior liens on the property) exceeds 10 percent of the bank's capital and surplus. A national bank need notify the OCC under this paragraph (b)(1) only once. A national bank need not notify the OCC that the bank intends to re-fit an existing building for new tenants or to make normal repairs and incur maintenance costs to protect the value of the collateral.

(2) The required notification must demonstrate that the additional expenditure is consistent with the conditions and limitations in paragraph (a) of this section.

(3) Unless informed otherwise, the bank may implement the proposed plan on the thirty-first day (or sooner, if notified by the OCC) following receipt by the OCC of the bank's notification, subject to any conditions imposed by the OCC.

Comptroller of the Currency, Treasury

§ 34.87

§ 34.87 Accounting treatment.

A national bank shall account for OREO, and sales of OREO, in accordance with the Instructions for the prep-

aration of the Consolidated Reports of Condition and Income.
